BMW Driver Training.

Course Information.

BMW Driver Training is the only driver training programme which offers you the opportunity to expand your driving knowledge and learn to keep your vehicle superbly under control, in a variety of situations, using a BMW vehicle.

You will have an expert companion at your side while you push your driving skills to their very limits in a wide range of driving situations.

By passing on their expertise in practical driving situations, our highly skilled instructors will ensure that participants learn as much as possible in the time allocated, as well as having a memorably enjoyable time.

BMW Driver Training.

BMW High Performance.

Overview:

Learn the theory of operating dynamics with information from the world of motorsport.

After completing a few laps under the guidance of an instructor, participants explore the optimum line around the bends on their own.

The Zwartkops Raceway Circuit is the ideal location for participants to practice techniques for perfecting a wide range of driving manoeuvres, with the aim of attaining a tidy, reproducible driving style along the ideal line.

Instructor to Student ratio.

1 : 3

Vehicles Used

BMW 330i (Manual)

BMW Driver Training.

Collision Avoidance & Skid Control.

Overview:

Compare how a vehicle behaves with and without the assistance of safety systems offered by BMW including Dynamic Stability Control and ABS.

Learn the basic requirements for optimal vehicle control by adopting the correct seating position and steering technique. Learn to handle critical situations through emergency braking applications and targeted braking together with lightning-fast evasive action when confronted by an obstacle, to avoid an impending collision safely.

An **Advanced High Performance** course is also available as a full day program and comprises of the High Performance and Collision Avoidance & Skid Control Courses.

Instructor to Student ratio.

1 : 18

Vehicles Used
